\*\* In additive components, there are no 1% or more hazardous substance subject to management, no 0.1% or more carcinogens and germ cell mutagenic substance, no 0.2% or more respiratory sensitizing substance(gas), and no 0.3% or more reproductive toxic substance.

# 4. FIRST-AID MEASURES

A. Eye Contact

- Do n<mark>o</mark>t rub your eyes.

- Immediately flush eyes with plenty of water for at least 15 minutes and call a doctor/physician.

# TotalEnergies

B. Skin Contact

- Flush skin with plenty of water for at least 15 minutes while removing contaminated clothing and shoes.

- Wash contaminated clothing thoroughly before re-using.
- C. Inhalation
  - When exposed to large amounts of steam and mist, move to fresh air.
  - Take specific treatment if needed.

#### D. Ingestion

- Please be advised by doctor whether induction of vomit is demanded or not.

- Rinse your mouth with water immediately.

- Remove all flammable sources
- If it is not dangerous, stop leaking.
- Take caution of substances and conditions that should be avoided.
- Ventilate properly.
- DO NOT touch the effluents or walk around the area.
- Prevent producing dust.

B. Environmental precautions

- -Prevent runoff and contact with waterways, drains or sewers.
- If large amounts have been spilled, inform the relevant authorities.

C. Methods and materials for containment and cleaning up

- Large spill : Stay upwind and keep out of low areas. Dike for later disposal.

- Notify the central and local government if the emission reach the standard threshold.

- Disp<mark>o</mark>sal of waste shall be in compliance with the Wa<mark>st</mark>es Control Act
- Appropriate container for disposal of spilled material collected.

- Small leak: sand or other non-combustible material, please let use absorption.

- Wipe off the solvent.
- Dike for later disposal.
- Prevent the influx to waterways, sewers, basements or confined spaces.

- Spilled material should be treated as a potential risk of waste collected.

#### 7. HANDLING AND STORAGE

- A. Precautions for safe handling
  - Wash thoroughly after use.
  - Take caution against high temperature.
  - Refer Engineering Maintenance and Personal Protective Gears at work.

# 13. Disposal Considerations

- A.Disposal method
  - When this waste is solid state and doesn't mixed with other materials, it should be entrusted to the waste recycling processor
  - When it is impossible to recycle, it should be entrusted to the waste recycling processor in accordance with the national regulated disposal methods(ex. incineration, landfill, etc)
  - When this waste is mixed with designated wastes, it is entrusted to the waste recycling processor in accordance with the national regulated disposal methods for the designated wastes
- B. Disposal instruction
  - Take care not to burst the package bag and/or the package container
  - Take care not to spill out of the package bag and/or the package container
  - Don't dispose of the waste which mixed with the reactive material
  - When disposing of the waste mixed with other materials, after stabilzing in order not to react each other, it should be safely disposed in accordance with the national regulation
  - Dispose of the waste in accordance with all national laws and regulations
